Menu

Windows Mobile™ 5.0

With the advanced functions of Outlook® and ActiveSync®, you can:

- Instantly call any number in your contacts
- Perform easy syncronising of Outlook® on your PC: Contacts, Calendar, tasks and E-mails.
- Access complete information on the contact persons.
- Consult your E-mail, tasks and appointments anytime and anywhere you want.

Camera

With the integrated photo and videocamera of 1.3 Mega Pixel, you can:

- Take pictures and shoot videos of family, friends and special events.
- Send your pictures and videos by phone using MMS or E-mail or through wireless connections.

Always online and connected whenever you want

Being wireless and always connected, you can:

- Connect to hotspots or to your PC via Wi-Fi .
- Use the Bluetooth® accessories - among these headsets and GPS.
- Recieve news of the world, sports and financial using Pocket Internet Explorer.
- Chat with your friends, family and colleagues with MSN® Messenger.
- Turn your mobile phone into a GPS navigator.

Be entertained

Thanks to the integrated powerful Windows Media® Player, you can:

- Listen to your favorite music in MP3 or WMA format or watch films and videos.

Bring the office with you

With Microsoft Windows, you can:

- Work on documents Word and Excel (optional).
- View PDF Files and Power Point presentations (optional).
